

Appendix I

Car Connectivity Consortium (“CCC”) Intellectual Property Rights Policy

1 Introduction

The Board of Directors of CCC (“Board”) has established the following Intellectual Property Rights POLICY.

2 Definitions

Terms in the POLICY which are written in capital letters shall have the meaning set forth in Clause 15 entitled DEFINITIONS.

3 Policy Objectives

The MEMBERS desire that CCC conduct its activities as a nonprofit trade association to develop intellectual property and standard industry FINAL SPECIFICATIONS to be distributed for general use by manufacturers for improved and seamless smartphone use in the automotive environment and to license technology pursuant to the FINAL SPECIFICATIONS and to provide certification procedures for the implementation of such FINAL SPECIFICATIONS.

4 Disclosure of IPRs

- 4.1 Subject to Clause 4.2 below, each MEMBER shall use its reasonable endeavours, in particular during the development of a SPECIFICATION where it participates, to inform CCC of ESSENTIAL IPRs in a timely fashion. In particular, a MEMBER submitting a CONTRIBUTION for a DRAFT SPECIFICATION shall, on a bona fide basis, draw the attention of CCC to any of that MEMBER'S IPR which might be ESSENTIAL if that proposal is adopted.
- 4.2 The obligations pursuant to Clause 4.1 above do however not imply any obligation on MEMBERS to conduct IPR searches.
- 4.3 The obligations pursuant to Clause 4.1 above are deemed to be fulfilled in respect of all existing and future members of a PATENT FAMILY if CCC has been informed of a member of this PATENT FAMILY in a timely fashion. Information on other members of this PATENT FAMILY, if any, may be voluntarily provided.

5 Procedures for Committees

CCC shall establish guidelines for the chairpersons of COMMITTEES with respect to ESSENTIAL IPRs.

6 Availability of Licences

6.1 When the Chairperson of a COMMITTEE determines that a DRAFT SPECIFICATION is ready to be released for review and/or approval, he or she shall provide the MEMBERS with notice of the COMMITTEE'S intent to submit such DRAFT SPECIFICATION to the Board for review and/or approval. Such notice shall include a complete version of the DRAFT SPECIFICATION that is the subject of such notice. Each MEMBER, on behalf of itself and its AFFILIATES, shall have sixty (60) days following the date of such notice ("Review Period") to review such DRAFT SPECIFICATION with respect to any intellectual property licensing issues including, without limitation, consideration of such MEMBER'S licensing obligations with respect to any ESSENTIAL IPR that may be contained therein. A MEMBER and/or its AFFILIATES shall not have the right to refuse to license under the terms of the POLICY any ESSENTIAL IPR contained in its CONTRIBUTION to the extent such CONTRIBUTION is incorporated in a FINAL SPECIFICATION. Unless a MEMBER has specifically stated in writing to the President of CCC ("President") during this Review Period that such MEMBER and/or its AFFILIATES are not willing to license any ESSENTIAL IPR relating to a particular DRAFT SPECIFICATION, the MEMBER and its AFFILIATES (whether or not any forms as set forth in Appendix A of this POLICY have been completed) agree effective upon adoption of the DRAFT SPECIFICATION by the Board as a FINAL SPECIFICATION to grant irrevocable licences on fair, reasonable and non-discriminatory ("FRAND") terms and conditions under such IPR to at least the following extent:

- MANUFACTURE, including the right to make or have made customized components and sub-systems to the licensee's own design for use in MANUFACTURE;
- offer to sell, sell, lease, or otherwise dispose of EQUIPMENT so MANUFACTURED;
- repair, use, or operate EQUIPMENT; and
- use METHODS.

The above FRAND commitment may be made subject to the condition that those who seek licences agree to reciprocate.

6.2 FRAND licensing commitments made pursuant to Clause 6 shall be interpreted as encumbrances that bind all successors-in-interest. Recognizing that this interpretation may not apply in all legal jurisdictions, any Declarant who has submitted a FRAND commitment according to the POLICY who transfers ownership of ESSENTIAL IPR that is subject to such commitment shall include appropriate provisions in the relevant transfer documents to ensure that the commitment is binding on the transferee and that the transferee will similarly include appropriate provisions in the event of future transfers with the goal of binding all successors-in-interest. The commitment shall be interpreted as binding on successors-in-interest regardless of whether such provisions are included in the relevant transfer documents.

- 6.3 A commitment pursuant to Clause 6.1 with regard to a specified member of a PATENT FAMILY shall apply to all existing and future ESSENTIAL IPRs of that PATENT FAMILY unless there is an explicit written exclusion of specified IPRs at the time the commitment is made. The extent of any such exclusion shall be limited to those explicitly specified IPRs.
- 6.4 As long as the requested commitment of the IPR owner is not granted, the COMMITTEE Chairperson should consult with the Board as to whether or not the COMMITTEE should suspend work on the relevant parts of the DRAFT SPECIFICATION until the matter has been resolved and/or submit for approval any relevant DRAFT SPECIFICATION.
- 6.5 MEMBERS should use one of the CCC IPR Licensing Declaration forms at the Appendix to this POLICY to make their IPR licensing declarations.

7 Information on IPR by CCC

- 7.1 Any published FINAL SPECIFICATION shall include information pertaining to ESSENTIAL IPRs which are brought to the attention of CCC prior to such publication.
- 7.2 CCC shall establish appropriate procedures to allow access to information at any time with respect to ESSENTIAL IPRs which have been brought to the attention of CCC.

8 Non-availability of Licences

- 8.1 Non-availability of licences prior to the adoption by the Board of a FINAL SPECIFICATION

8.1.1 Existence of a viable alternative technology

Where prior to the adoption by the Board of a FINAL SPECIFICATION an IPR owner informs CCC that it is not prepared to license an IPR in respect of a SPECIFICATION in accordance with Clause 6.1 above, the COMMITTEE shall review the requirement for that SPECIFICATION and satisfy itself that a viable alternative technology is available for the SPECIFICATION which:

- is not blocked by that IPR; and
- satisfies CCC's requirements.

8.1.2 Non-existence of a viable alternative technology

Where, in the opinion of the Board, no such viable alternative technology exists, work on the SPECIFICATION shall cease, and the President shall observe the following procedure:

- a) If the IPR owner is a MEMBER,

- i) the President shall request that MEMBER to reconsider its position.
- ii) If that MEMBER however decides not to withdraw its refusal to license the IPR, it shall then inform the President of its decision and provide a written explanation of its reasons for refusing to license that IPR, within forty-five (45) days of its receipt of the President's request.
- iii) The President shall then send the MEMBER'S explanation together with relevant extracts from the minutes of the COMMITTEE to the legal counsel representing CCC for consideration.

b) If the IPR owner is a third party,

- i) the President shall, wherever appropriate, request full supporting details from any MEMBER who has complained that licences are not available in accordance with Clause 6.1 above and/or request appropriate MEMBERS to use their good offices to find a solution to the problem.
- ii) Where this does not lead to a solution the President shall write to the IPR owner concerned for an explanation and request ultimately that licences be granted according to Clause 6.1 above.
- iii) Where the IPR owner refuses the President's request and decides not to withdraw its refusal to license the IPR or does not answer the letter within forty-five (45) days after the receipt of the President's request, the President shall then send the IPR owner's explanation, if any, together with relevant extracts from the minutes of the COMMITTEE to the legal counsel representing CCC for consideration.

8.1.3 Prior to any decision by the Board related to sections 8.1.1 and 8.1.2 of the POLICY, the COMMITTEE should in consultation with the President use their judgment as to whether or not the COMMITTEE should pursue development of the concerned parts of the SPECIFICATION based on the non-available technology and should look for alternative solutions.

8.2 Non-availability of licences after the publication of a FINAL SPECIFICATION

Where, in respect of a published FINAL SPECIFICATION, CCC becomes aware that licences are not available from a third party IPR owner, that FINAL SPECIFICATION shall be referred to the Chair of the Board for further consideration in accordance with the following procedure:

- i) The President shall request full supporting details from any MEMBER or third party who has complained that licences are not available from such third party IPR owner.
- ii) The President shall write to the third party IPR owner concerned for an explanation and request that licences be granted according to Clause 6.1 above.
- iii) Where the third party IPR owner refuses the President's request or does not

answer the letter within forty-five (45) days, the President shall inform the Board and, if available, provide the Board with the third party IPR owner's explanation for consideration. A vote shall be taken in the Board to immediately refer the FINAL SPECIFICATION to the relevant COMMITTEE to modify it so that the IPR is no longer ESSENTIAL.

iv) Where the vote in the Board does not succeed, then the President shall, where appropriate, consult the legal counsel representing CCC with a view to finding a solution to the problem.

9 CCC ownership of IPRs

9.1 The ownership of the copyright in SPECIFICATIONS documentation and reports created by CCC or any of its COMMITTEES shall vest in CCC subject to the MEMBER'S or its AFFILIATES' copyright ownership in their CONTRIBUTIONS as stated herein. Subject to section 9.1.1 of the POLICY, CCC shall own the copyright in the compilation of CONTRIBUTIONS forming the FINAL SPECIFICATIONS and informational documents. CCC may exercise any and all rights of copyright ownership and sublicense such rights in the FINAL SPECIFICATIONS and informational documents as if such rights were solely owned by CCC, without permission of the assigning MEMBER or AFFILIATE and without any duty to account.

9.1.1 Subject to the rights attaching to the FINAL SPECIFICATION, each MEMBER or its AFFILIATES shall retain ownership of, including ownership of all copyrights in, any CONTRIBUTION it makes to the DRAFT SPECIFICATION. Each MEMBER hereby grants to CCC, and agrees to cause its AFFILIATES to grant to CCC, a royalty-free, nonexclusive, worldwide, and sub-licensable copyright license to reproduce, create derivative works of, distribute, display and perform its CONTRIBUTION.

9.1.2 Upon the release of a FINAL SPECIFICATION, CCC grants each MEMBER and its AFFILIATES a royalty-free, nonexclusive, worldwide, non-transferable and non- sublicensable copyright license to reproduce and distribute internally (within the MEMBER company including AFFILIATES or, subject to a restricted use nondisclosure agreement, third party contractors of the MEMBER) the FINAL SPECIFICATION as reasonably necessary to implement such FINAL SPECIFICATION.

9.1.1 CCC in its sole discretion may decide to release any FINAL SPECIFICATION to MEMBERS and their AFFILIATES or to third parties under any additional copyright licenses approved by the Board.

9.2 In general, in the absence of any exceptional circumstances, where SOFTWARE is included in any element of a SPECIFICATION there shall be no requirement to use that SOFTWARE for any purpose in order for an implementation to conform to the SPECIFICATION.

9.2.1 Without prejudice to Clause 9.1, any MEMBER contributing SOFTWARE for inclusion in a SPECIFICATION hereby grants, without monetary compensation or any restriction other than as set out in this Clause 9.2.1, an irrevocable, non-

exclusive, worldwide, royalty-free, sub-licensable copyright licence to prepare derivative works of (including translations, adaptations, alterations) the contributed SOFTWARE and reproduce, display, distribute and execute the contributed SOFTWARE and derivative works for the following limited purposes:

- a) to CCC and MEMBERS to evaluate the SOFTWARE and any derivative works thereof for determining whether to support the inclusion of the SOFTWARE in that SPECIFICATION;
- b) to CCC to publish the SOFTWARE in that SPECIFICATION; and
- c) to any implementer of that SPECIFICATION to evaluate the SOFTWARE and any derivative works thereof for inclusion in its implementation of that SPECIFICATION, and to determine whether its implementation conforms with that SPECIFICATION.

9.2.2 (i) The copyright licence granted in Clause 9.2.1 shall also extend to any implementer of that SPECIFICATION for the purpose of using the SOFTWARE in any compliant implementation unless (ii) the contributing MEMBER gives an irrevocable commitment in writing at the time of CONTRIBUTION that it is prepared to grant an irrevocable copyright licence on fair, reasonable and non-discriminatory terms and conditions for the purpose of using the SOFTWARE in any compliant implementation.

9.2.3 Any MEMBER contributing SOFTWARE for inclusion in a SPECIFICATION represents and warrants that to the best of its knowledge, it has the necessary copyright rights to license that CONTRIBUTION under Clause 9.2.1 and 9.2.2 to CCC, MEMBERS and implementers of the SPECIFICATION.

Other than as expressly provided in this Clause 9.2.3: (1) SOFTWARE contributed for inclusion in a SPECIFICATION is provided "AS IS" with no warranties, express or implied, including but not limited to, the warranties of merchantability, fitness for a particular purpose and non infringement of intellectual property rights and (2) neither the MEMBER contributing SOFTWARE nor CCC shall be held liable in any event for any damages whatsoever (including, without limitation, damages for loss of profits, business interruption, loss of information, or any other pecuniary loss) arising out of or related to the use of or inability to use the SOFTWARE.

9.2.4 With respect to the copyright licenses set out in Clause 9.2.1 and 9.2.2, no patent licence is granted by implication, estoppel or otherwise.

9.3 In respect of IPRs other than copyright in SPECIFICATIONS documentation and reports, CCC shall only seek ownership of IPRs generated either by its employees or by secondees to CCC from organizations who are not MEMBERS.

9.4 CCC shall, on request by a non-member, grant licences to that non-member on fair and reasonable terms and conditions in respect of any IPRs, other than those referred to in Clause 9.1 above, owned by CCC. MEMBERS shall be allowed to use IPRs owned by CCC free of charge.

10 Confidentiality

Unless otherwise determined by the Board, the proceedings of a COMMITTEE shall be regarded as confidential.

CONFIDENTIAL INFORMATION incorporated in a FINAL SPECIFICATION shall be regarded as non-confidential by CCC and its MEMBERS, from the date on which the FINAL SPECIFICATION is published.

11 Reproduction of Standards Documentation

MEMBERS may make copies of SPECIFICATIONS documentation produced by CCC for their own use free of charge but may not distribute such copies to others.

12 Law and Regulation

The POLICY shall be governed by the laws of France. However, no MEMBER shall be obliged by the POLICY to commit a breach of the laws or regulations of its country or to act against supranational laws or regulations applicable to its country insofar as derogation by agreement between parties is not permitted by such laws.

Any right granted to, and any obligation imposed on, a MEMBER which derives from French law and which are not already contained in the national or supranational law applicable to that MEMBER is to be understood as being of solely a contractual nature.

13 Amendments

This POLICY may be altered, amended or repealed or a new POLICY may be adopted by affirmative vote of at least two-thirds of the directors of the Board (primary or designated alternate of each MEMBER), as in effect on the vote date. Notwithstanding the foregoing, no alteration, amendment or repeal of this POLICY shall be effective until the thirty-first (31st) day after notice to MEMBERS, which notice may be by electronic means.

14 Violation of Policy

Any violation of the POLICY by a MEMBER shall be deemed to be a breach, by that MEMBER, of its obligations to CCC. The Board shall have the authority to decide the action to be taken, if any, against the MEMBER in breach, in accordance with the CCC policies and procedures.

15 Definitions

1 “**AFFILIATE**” of a first legal entity means any other legal entity:

- directly or indirectly owning or controlling the first legal entity,

Ownership or control shall exist through the direct or indirect:

- ownership of more than 50% of the nominal value of the issued equity share capital or of more than 50% of the shares entitling the holders to vote for the election of directors or persons performing similar functions, or
- right by any other means to elect or appoint directors, or persons who collectively can exercise such control. A state, a division of a state or other public entity operating under public law, or any legal entity, linked to the first legal entity solely through a state or any division of a state or other public entity operating under public law, shall be deemed to fall outside the definition of an AFFILIATE.

- 10 **“SPECIFICATION”** shall mean any DRAFT SPECIFICATION and any FINAL SPECIFICATION.
- 11 **“IPR”** shall mean any intellectual property right conferred by statute law including applications therefor other than trademarks. For the avoidance of doubt rights relating to get-up, confidential information, trade secrets or the like are excluded from the definition of IPR.
